Whatever may be the thoughts of the leaders of Tammany Hall on this subject, it is perfectly clear that they have resorted to their old tricks again. There seems to be not the slightest reason for doubting that illegal registration is being carried on in a wholesale manner in the 111d Assembly District-ruled by manner in the Hild Assembly District—rated by Milliam Green.

RESULTS OF "THE HERALD'S" INVESTIGATIONS. The Tribune announced yesterday that Tammany was again indulging in wholesale colonization. This announcement received confirmation in the columns of "The Herald" yes-terday. "The Herald" has investigated the ernation in the columns of "The Heraid" yes-terday. "The Heraid" presents to the good citizens of New-York the following names, real or assumed, of twenty men who should be arrested for illegally registering in the polling place of the Seventeenth Election District, at No. 1 Rivington-st. Each man of them swore that he resided at No. 203 Howery, where there is no bed, cot, or even hammork for one to sleep no. The ground floor of No. 203 Bowery is a saloon, well known as the head-quarters of Timothy "Dry Dollar" Sullivan, Tammany candidate for State Senator. The floor above is empty and wholly unoccupied. The top floor is a gambiing-room. Here are names found on the nublic registration book:
Patrick Mullons, Batrick Mullons, Edward Schnell,

Michael Stanton.
Patrick Murphy,
George Nelson.
Thomas Wilson,
Thomas H. Coffey.
Archibald Thompso:
John Vail.
Joseph Doyle,

If these men are not artest will not be because the proper authorities are ignorant of the case. The latter forms but one incident, however, in a tale of real life which should command the attention of every intelligent person living on Manhattan Island.

The way leaders usually colonized illegal voters was to bring into certain districts groups of idle, we have being into certain districts groups of idle, we have being into certain districts groups of idle, we have being into certain districts groups of idle, which is the same and also "made it right" with the "seedlings" who thus were planted. This year, it seems, even these audacious, disgraceful methods have been surpassed. At present the trouble is not taken to "plant" scores of such groups in lodging-houses; instead, the leaders merely collect them, march them to the polis to be registered, and there they swear that they have resided from thirty days to ten years in houses where they have never been for a single night.

ten years in houses where they have never been for a single night.

Over this Hid Assembly District, undeniably the worst in the city, Timothy D. Sullivan holds sway absolute, autocratic, complete. He is the main-spring of an organization, political and commercial, the perfect discipline of which has never been surpassed, probably, in any Assembly district at any time. He can make or mar the political fortunes of any man or group of men living therein. He can raise to prosperity or ruin any man carrying on business whose customers are residents of his principality. So great is this man's power and so greatly is it feared that his subjects, Republicans and Tammanyites alike, are afraid to own their very souls. Not merely are private citizens so intimidated, but sworn officers of the law-inspectors of elections.

HEADQUARTERS OF THE NEFARIOUS GANG. onizing" and fraudulent registry more be and openly made than at the low, vile gambling resort and "dive" known as the Comanche House, No. 203 Bowery, the headquarters of "Dry Dellar" Sullivan and his followers, including "Soda Water" Riley, Sullivan's "valet"; Dennis Sullivan and "Boston Tim" Sullivan, who are among his chief henchmen. So heedless of public opinion and so secure in their belief that the law will not trouble them are these individuals that they take practically no precautions to hide the fact that "negotiations" are carried on there.

The "gang" which frequents the place is typical of Tammany. The countenances of the majority of these men are a plain index to their character. Bullet headed, short haired, small eyed, smooth shaven and crafty looking, with heavy vicious features, which speak of dissipation and brutality, ready to fight at a moment's notice, the followers of the would-be Senator loof about the place, walting for orders which may come from him at any time about matters to be looked after in the district.

It was on Wednesday last a production do

trict.

It was on Wednesday last, a registration day, that the Comanche Club "gang" was in its element, for there was much work to be done. "Floaters" and repeaters gathered there as early as \$ o'clock in the morning, the hour at which the polling booths opened. It took no great amount of guessing to discover the reason of their presence, for the greater part of them carried their signs with them, as the saying goes.

"DRY DOLLAR" CONSULTS HIS HEELERS. Dollar" make his appearance at the saloon to consult with his aids, and then visit differregistration places with them whenever his the conscienceless rascals who had been "collonized" in the many lodging-houses and other places in the district gravitated between there and the registration booths. Dennis or "Boston Tim" Sullivan or "Soda Water" Riley held whispered interviews with these fellows either on the sidewalk apart from others or in the rear of the saloon, the "gang" leaders emphasizing their words with either nods or shakes of the head and appropriate gestures. Then a crowd of them would start off in the direction of some registration place.

After the registration places. After the registration places had closed. Sullivan's saloon was crowded. The "gang" celebrated because of their successful day's work, and the visitor who had a political axe to grind came in and took part in the celebration with a view of solidifying himself with "de Senator," as those present addressed "Dry Dollar."

The same performance all through will take place at No. 263 Bowery next registration day. Then, if "Dry Dollar" is elected to the Senate on November 7 he will tell the public in future speches how the "free will of the people" and the purity of the ballot was upheld in the IIId Assembly District on Election Day.

It is preposterous that twenty men reside at No. 263 Bowery. The names and political records (probably assumed) of these men are herewith reproduced from the public registration book of the Seventeenth Election District, at No. 1 Rivingtonst.:

A REPUBLICAN INSPECTOR'S STORY. The Republican inspector at No. 1 Rivington-st., where these men registered, is Alexander K. Moses,

the first registration day he was called away from the polls by the death of his father, and that while he was absent nine men registered from Sullivan's, at No. 203 Howery. In speaking of his experience he adds:

ne adds:
"As to repeating, I am sure it is going on all around here. On this page twenty-four men are registered from a certain house on Chrystie-st. I am convinced from my knowledge of the houses about here that they don't live there. But what can be done about it? If you go there some of the real tenants will swear that these two dozen do live there.

live there. "Now, here," continued Mr. Moses, "are a number of fast houses where no men live—Nos. 6, 8, 12, and 14 Delancey-st. Four men, however, are registered as residing in each of these houses, and if you inquire the residents will tell you that they do live these."

do live there."

The suggestion was acted upon. The houses were visited. All are in a row; all are low, old-fashioned brick dwellings, neatly painted. Each has a hooelike awning over the doorway, and on each awning the number of the house is displayed in letters eight inches long. The outer front doors are all held half way back by strings. The inner doors are curtained with red. The window shutters are always closed.

From No. 12 Delancey had registered "John Brown." I called there and asked for him. The woman who answered the door said that Mr. Brown lived there, but that he was not at home. The same reply was obtained at No. 8, where inquiry was made for "George Waison."

At No. 12 I asked for "James Boyle," but here the woman in charge denied that Boyle lived there. She said she never had heard of him and slammed the door.

The majority of Republican inspectors in the HIId Assembly district relate experiences similar "The Herald" also says that Philip Strobel, a

Republican inspector of election in the Sixth election District of the IIId Assembly District, firing at has offered to see that certain men who registered at No. 49 Eldridge-st, are arrested if he can get some help. Here are the names which Mr. Strobel says have been illegally registered:

From No. 36 Forsyth-st.
Thomas Gleason,
William Cahill,

Danoul (sle) Gallagher,
Danaul (sle) Ryan,
James Martin,

From No. 101 Canal-st. an, George Green, NONE OF THE MEN LIVE AT THE ADDRESSES

To "The Herald" Mr. Strobel said that he had suspicions about these men on the registration Since then he has made inquiry at addresses given by the men. As a result of his investigations he was satisfied that none of the known to those in charge, except at No. 101 Canal-st. Mr. Strobel did not make inquiries there, he said, because he knew it to be a house of ill-fame. Speaking of No. 34 Forsythst., Mr. Strobel said that August Weber had a st., Mr. Strobet said that August Weber had a large butcher shop there, and occupied the rest of the building as his home. Mrs. Weber indignantly denied that the six men who reg-istered from there lived there. At Nos. 36 and 38 Forsyth-st, the people in charge disclaimed all knowledge of the persons who swore they lived there.

It is a well-known fact among politicians and others who have had occasion to study the political methods of Timothy D. Sullivan that it is his ambition so thoroughly to "Tammanyit is his ambition so thoroughly to "Tammanyize" his district that a Republican voter cannot be found there at midday with a searchlight. Mr. Sullivan is extremely anxious to remain popular with his chief, Richard Croker. This knows can only be done by keeping the Tammany majority in the district up to the high-water mark. This, of all years, is the most trying one that Tammany district leaders have ever had to live through. The Democratic party is burdened with the awful lead of Maynard at the head of its State ticket. The district leaders have been told that Maynard must be elected at all hazards. This account for the unusual activity of Tammany leaders in districts that are noted for their great Tammany majorities. If Maynard is elected the

started out to confirm the truth of the article published in "The Herald" yesterday morning with the idea of going before the Grand Jury and securing, if possible, the indictment of Sullivan and the entire lot of election swindlers. The members of the club believe if they wait until after the election before pressing these cases before the Grand Jury, even though they do obtain the indictment of the guilty men, the cases will be dragged along and postponed from time to time until the District-Attorney's office has been turned over to Colonel John R. Fellows, who, they fear, will begin immediately to populate the pigeon holes of his desk with indictments, and that indictments against political criminals of the Tammany Hall stripe will be among the first to be placed in them and the last to be taken out. The members of the City Club, on the other hand, believe that if indictments can be found right away District-Attorney Delancey Nicoll will do his best to have the indicted men prosecuted, and make an honest effort to secure convictions in every case. It is their opinion that Mr. Nicoll is anxious to leave the office with a first class record, and that it would not be his fault if convictions did not follow. No plans were decided upon by the members of the club yesterday, but the testimony of those who personally made the investigations will be got into shape as quickly as possible for presentation to the Grand Jury.

A second later the crash came, Conductor Davis, who had been on the express car changing his clothes, ran to the rear platform when he heard the whistle for brakes, and was caught between the two platforms and instantly killed. He had been employed on the road for many years. He was about hirty-three years old, married, and lived in Tottenville. He was a prominent Free Mason.

A DEMOCRATIC TRICK TO GAIN A SENATOR. Another device of Mr. Shechan to get votes or Maynard and the other Democratic candidates has been reported at the headquarters of the Republican State Committee filed at Albany certificates of nomination by a sham political party, to which he has given the title "Progressive Republican party." These certificates nominate one Urban Prescott for Senator in the XXXIId Senate District, which covers the counties of Allegary, Cat-taraugus and Chautauqua. Prescott has been nominated for Senator by the Democrats, Pop-ulists, Prohibitionists and Socialists. Speaking of Prescott's certificate yesterdiscovered that he is attempting to get its name upon the ballots of the Democratic, Prohibition, Socialist, Populist and Progressive Republican parties. Of course, the alleged Progressive Republican party is a humbug, invented to catch Republican votes, if possible. As for his use of the names of the Republican candidates for State officers and for Delegates-at-Large to the Constitutional Convention, that I can prevent by having our candidates decline the nomination of the Progressive Republican party. Mr. Sheehan is attempting to elect Prescott in the same manner in which Dr. J. T. Edwards was elected Senator over Commodore P. Vedder, the regular Republican candidate in the XXXIId District, two years ago; but this year the scheme will not work, because we will not permit the names of Republicans to be printed upon Prescott's ballots. It is a pretty plot to get Prescott's name on five ballots and my own on only one—the Republican; but we have discovered it in time to circumvent it."

It should be stated that the "Progressive Republican" ballot of Prescott was not to contain the name of Edward T. Bartlett; therefore, any Republican who innocently voted it, seeing that it contained the names of the Republican candidates for State offices, would fail to vote at all for Chief Judge of the Court of Appeals.

AN ARTFUL TRICK OF NO AVAIL. With their usual policy, the Democrats have kept back the announcement of the tax rate for this year so that it may not be known until after the election is decided. But every taxpayer may conclude from this that it will be ubstantially the same as or slightly grouter than last year, for if it had been less there would be haste to exploit it with sound of trumpets. With the high tax rate, advanced assessments-save for the favored few-and the financial stringency, taxpayers will find it more difficult than usual to meet their bills next December, and they should pause and ask them-

Pearsail, the paid attorney of the Long Island Water Supply Com-pany, in its effort to foist upon the city its property at more than double the value set by a commission of experts, or such I lawyer as William J. Gaynor, who not only frontrated this scheme, but has prevented many other palpable swindles of the public treasury from proving successful. Mr. Gaynor's public spirit and active work to promote the best interests of the city have been such as to win many warm expressions from prominent citizens. If the spirit manifested toward his reform measures is shown at the polls by the voters of the district he can easily defeat his opponent. While Mr. Pearsall has not addirested any more mars-meetings of milkmen, he still retains his official place at the head of the Democratic County Committee.

GOING BACK TO OLD METHODS.

The attempt on the part of the heelers of "Jim" McGarry, the "Boss" of the Tenth Ward, led by his sons, to break up the meeting of the Young Men's Democratic Club when the cffort was made to approve of the nomination of

fort was made to approve of the homination of Mr. Schieren was happily frustrated, but the influence of it will not be lost in the campaign. It was a reversal to the old-time method of overawing public sentiment by packing meetings. The excitement at the meeting has not been paralleled in a number of years. Such tactics can only serve to reduce the Democratic vote by disgusting decent men.

The Democrats have secured Senator Hill to cpen the campaign at the Academy of Music this ovening, and he will doubtless be received with enthusiasm by the regular Democrats. But his advocacy of Mayor Boody will not strengthen the cause of the latter among Anti-Snappers and Cleveland Democrats. District-Autorney Ridgway will put forward his defence of Maynard, whose nomination he urged as a reward for his services to the Democratic party—said services being in the nature of lying, theft, fraud, and violation of election laws.

The Republican campaign is to be prosecuted with vigor in all parts of the city this week, and every possible point will be covered, so that there may be no advantage taken of lapses by the Democrats Especial efforts are to be made to get voters to register this week, the irast opportunities being afforded on Friday and Saturday, from 7 a. m. to 10 p. m. each day.

THE CYCLONE MAY HAVE SWITCHED OFF

Frank W. Higgins, of Olean, is the Republican candidate for Senator in the XXXIId District. Speaking of Prescott's certificate yester-lay, Mr. Higgins said: "Upon examining day. Mr. Higgins said: "Upon examining Prescott's certificate at Albany yesterday, I discovered that he is attempting to get his name upon the ballots of the Democratic, Prohibition, Socialist, Populist and Progressive Republican parties. Of course, the alleged Progressive Republican party is a humbug, inthat the wind will be high enough to make itself unpleasant to small eraft, unless they are well protected. It is likely that vessels at sea be-

protected. It is likely that vessels at sea between here and the West Indies have already had a rough time of it. Some of those injured in the first October cyclone may be endangered by the present one.

The steamship Ciudad Condal, which is on its way from Charleston, S. C., to this port in tow of the tug Orlon, will probably be caught in it, though it is barely possible that she may arrive to-day before the storm bursts. As she has only one of the four blades of her propeller intact it is evident that her captain was wise in asking for a tow-boat to bring her to this city.

A dense fog off Sandy Hook in the early hours of yesterday delayed several vessels, among them the French steamship La Champagne, outside the bar for several hours. Last night the weather there was cloudy and hazy, with a moderate breeze,

SAVED FROM A SINKING SCHOONER. The schooner Harry W. Hayhes, which arrived

at this port yesterday with a cargo of lumber from Marty A. Holmes, which was wrecked in a cy-clone ten days ago. The Holmes was also a lum-ber schooner, and was bound from Savannah to New-York. On October 10 she was caught in the Kansas City, Mo., Oct. 22.—The Santa Fe Company yesterday ordered that hereafter every passenger train between Chicago and Kansas City must have a flagman on the rear platform constantly, and the official order adds that this flagman must not leave his post to eat or sleep until he is relieved by some one capable of standing watch. This precaution is against rear-end colligions. Other roads will likely follow the example and adopt some similar scheme.

New-York. On October 10 she was caught in the cyclone, her sails split and blown to shreds and her crew took to the rigging. As the schooner settled slowly the men climbed higher up the masts. All day on October 11 they were without fire, food or water. On the 12th they were seen and rescued by the Haynes. All were stiff, sore and weak from hunger and exposure. Only the lumber, with which the schooner was loaded, kept her from sinking.

UNCONDITIONAL RELEAL DEMANDED.

THE PRESIDENT AND HIS CABINET REPORTED, AS ADHERING TO THEIR ORIGINAL POSI-TION-THEY BELIEVE THAT A MAJORITY .. IN BOTH HOUSES WILL VOTE FOR

THE PENDING BILL, AND THAT COUNTRY DEMANDS IT.

Washington, Oct. 22 .- A prominent official not a Cabinet officer, late to-night gave out the following authoritative statement of President Cleveland's views as to the proposed compromise measure, which, it is expected, will soon he brought before the Senate:

"The President adheres to the position that the purchasing clause of the Sherman silver law should be unconditionally repealed. The lower House of Congress voted for repeal, and an overwhelming majority, a majority in the Senate are in favor of unconditional repeal, and the sentiment of the country demands the passage of the pending bill. It is not true that ecretary Carlisle is or has been in favor of the compromise which was subscribed to by a number of Senators on Saturday. He and the other members of the Cabinet are opposed to that measure."

OUTLOOK IN THE SENATE.

COMPROMISE LIKELY TO GET A MAJORITY WITHOUT TROUBLE.

DEMOCRATIC SENATORS WHO HAVE NOT SIGNED THE "STEERING COMMITTEE'S HARMONY CIRCULAR" - INFLATIONISTS AND NOT SILVER PRODUCERS GET

ALL THE BENEFITS. [BY TELEGRAPH TO THE TRIBUNE. Washington, Oct. 22.-The Democratic "Steering Committee's" compromise is expected to reach the Senate in some formal shape tomorrow, although of course its presentation may be delayed by some unexpected turn of events until Tuesday. Of its acceptance by the majority as a party measure there can be no possible question, in view of the preponderating number and influential character of the signers, who have already put their names to the agreement. Of the forty-five Democratic Senators only seven are still unpledged to the compromise, and among these seven is no Senator of any length of service or any considerable standing and influence in the body. In the list

Caffery, Louisiana; Mills, Texas; Palmer, Illinois; Irby, South Carolina; Mitchell, Wisconsin, and White, California, Messrs, Mitchell and White have been absent from Washington for several days, and have thus been prevented from attaching their names to the letter of instructions to Mr. Voorhees. Mr. White is a silver Democrat and consistent opponent of unconditional repeal. approval of the compromise scheme is therefore practically certain. Mr. Mitchell, of Wisconsin, is a friend of the Administration, but did not take a very active part in the fight for unconditional repeal. He is also counted upon as a certain supporter of the compromise which his colleague, Mr. Vilas, a member of the

Steering Committee," has helped to construct

ed to give the compromise the support of the requisite majority. Mr. Irby, a violent silver man and savage critic of the Administration, has withheld his consent to the compromise, on the ground that it concedes too much to the President and the unconditional-repeal interest. As, however, the "Steering Committee's" substitute was drawn and managed chiefly by

coinage associates and take the "Steering Com-

mittee's" plan as the largest concession to silver

that can be obtained under present conditions, Mr. Mills declared in a speech a few days ago that during all the earlier part of the present session he favored a compromise policy, and worked for it. He does not oppose a compromise now on principle, therefore, but rather in a spirit of bitterness and peevishness at the success of the Democratic managers in the Senate who rejected his own earlier advances and preferred to bring the Administration to terms in their own way and at their own time. Mr. Mills is still theoretically a free-coinage man, to judge from some of his recent utterances, and his whole course in the contest for repeal has been inspired by personal friendship for the President and Secretary Carlisle, rather than by any devotion to the policy of honest money which they have been supposed to uphold and embody. Mr. Mills has a violent prejudice, however, against compromises and dickerings of any sort, and he may not choose to swallow with much grace the pill which the "Steering Committee" has

sought to sugar-coat for the Administration HOW SENATOR PALMER STANDS.

Mr. Palmer has been a cheerful and voluble advocate of the policy of dying in the last ditch of unconditional repeal, but, as he ac-knowledged yesterday in a voluminous interview, he is only a private in the corporal's guard of Administration followers now left in the Senate, and cannot be depended upon to continue to fight after the chiefs of the squad have hauled down the colors. He was on the point of being persuaded to-day to come over to the majority, following all his other Democratic colleagues from the West, and his name is fairly sure to be on the paper directed to Mr. Voorhees when it is ready for presentation.

No one seems to know the exact reason for Mr. Caffery's reluctance to accept the compromise plan. He is a new Senator triing come here last winter by appointment from the Governor of Louisiana to fill temporarily the vacancy caused by Mr. Gibson's death. He made a speech in August in favor of unconditional repeal, in which he in his hand when he declared himself an outand-out anti-silver man. Having risked his political fortunes on this anti-silver issue, he is perhaps averse to see the issue vanish in the dust raised by compromise.

MR. HILL NOT LIKELY TO SURRENDER.

Having by his harmless pantomime on the question of closure conquered at one stroke the unstinted regard and lavish affection of his life-long and virulent newspaper critics in New-York, Mr. Hill is not disinclined further to disarm these foes, and incidentally to help along the candidacy of his friend May-
